CSOS MISSION

As an interdisciplinary organization, the CSOS is dedicated to supporting the generation and application of knowledge regarding occupation, seeing this is vital to the promotion of health, well-being, and justice. The CSOS will: 1) foster the continued growth of occupational science within Canada and abroad; and 2) advance an understanding of the importance of occupation through public, academic, and policy arenas.

CSOS VISION

1. Promote scholarship on occupation through the creation of opportunities to network and exchange knowledge, such as conferences, workshops, and a guest lectureship.
2. Enhance graduate student opportunities to engage in occupational science research, and present their work at conferences within Canada and abroad, through the provision of mentorship and funding.
3. Promote awareness of occupational science and foster knowledge transfer within public, academic and policy arenas.

BECOMING A MEMBER

The membership year runs from January 1 to December 31 and we accept new members at any time. To become a member, please complete the information on page 2 of this form.

You can join or renew your membership by sending your membership form and cheque to the address indicated on the following page.
